DRIVING MOBILITY
FOR A STRONGER TOMORROW

RADO – POWERING THE INDIAN AUTOMOTIVE INDUSTRY

With over 1700+ technical wear parts, we are constantly evolving, innovating and delivering high-quality, reliable solutions. Our products keep vehicles moving, and so does our commitment to a stronger tomorrow.

RELIABLE QUALITY | INNOVATIVE SOLUTIONS | WIDE RANGE OF PRODUCTS | TRUSTED BY INDUSTRY

Quality by Conviction

Every Rado part is a result of meticulous engineering and stringent quality checks — because we believe in consistent performance, on every journey.

From initial sampling to detailed inspections, our commitment to quality ensures that you get nothing but the best.

We offer a complete range of steering and suspension parts – from tie rods, ball joints, stabilizer links, rack ends, control arms and cylinder joints to under car steering and suspension range.

RADO®
CLUTCHES | BRAKES
SUSPENSION

RADO – THE PIONEER IN THE INDIAN AUTOMOTIVE INDUSTRY

Our range of over 1700 technical wear parts for the automotive industry is growing constantly, and we make new products available as quickly as possible. To ensure that our customers are always one step ahead, we closely monitor current trends and developments, and constantly add new parts to our range.

COMPANY PROFILE

We are the leading manufacturers and exporters of tie rod ends, universal joint crosses, suspension arms, rack ends, repair kits, tie rod assemblies, drag link assemblies and allied suspension components for most cars, tractors, jeeps, light/heavy commercial vehicles and new generation vehicles in India.

We are very well established and reputed with an excellent distribution network throughout India and have a very good track record as we offer the best quality and services at competent prices.

Our manufacturing unit is located in Mayapuri Industrial Area, New Delhi. It is replete with infrastructure, machinery and facilities that are at par with global standards. It includes state-of- the-art CNC machines, S.P.M.'s, tool room, induction hardening and very well-equipped testing facilities. We are focused on innovation through constant R&D and quality control. Right from the procurement of raw material to finished goods, our team of experts keep an eye on every stage of product development and have constantly introduced new solutions, designs and valuable technical inputs in the market for customer satisfaction.
